

OUR BATTLES AND VALUES IN 2017

Strengthen the ties between French citizens and the European Union

- Strengthen the French citizens' sense of belonging to the EU, the European monetary union, and the Schengen area ;
- Put the EU at the heart of the 2017 French presidential election and rehabilitate the European idea in France ;
- Celebrate the 30th anniversary of the Erasmus program and "Europe as an opportunity" ;
- Promote the transparency of the policies and the decision making process of the EU.

Defend the founding principles of the European integration

- Make sure that the Union stays a community based on values and principles (the rule of Law, democracy, gender equality, respect of minorities...);
- Defend the benefits of the "common market" and free competition by celebrating of the 60th anniversary of the Treaty of Rome ;
- Fight Europhobia at the dawn of the Brexit negotiations

Strengthen the European economic and social policies

- Debate on the future of big trade agreements such as TTIP and CETA ;
- Support economic growth and the industry in Europe ;
- Step up the fight against tax evasion and support tax harmonization in Europe ;
- Improve the European R&I common policy.

Promote a European security and defense policy

- In the light of the terrorist threat, encourage cooperation and European integration and promote Europe as "a response to threats";
- Debate the national and European reactions towards the terrorist threat ;
- Understand and anticipate NATO's evolutions ;
- Improve the crisis management in our neighboring countries (Syria, Ukraine, Libya...).

Foster EU values and extend its international influence

- Encourage European cohesion in face of the global coalitions and Donald Trump's United States of America ;
- Reaffirm European leadership towards climate change and global energy challenges ;
- Redefine the EU's relationship with Russia and Turkey ;
- Address migration and development issues through a global approach, especially in regard to the EU-Africa relationship.
